📝 Todo List App

A modern and responsive **Todo List web application** built with **HTML, CSS, Bootstrap, and JavaScript**. This project allows users to add and manage daily tasks with categories in a clean and user-friendly interface.

🚀 Features

- ✅ Add new tasks easily
- ✅ Assign categories (Personal, Work, Shopping, Health)
- ✅ Dynamic task rendering
- ✅ Clean UI using Bootstrap
- ✅ Responsive layout (mobile & desktop)
- ✅ Task status checkbox
- ✅ Icons for actions (star & delete - UI ready)

📂 Project Structure

```
project/
│
├── index.html
├── style.css
├── script.js
└── images/
    └── calender.png
```

🧠 How It Works

- User enters a task in the input field
- Selects a category from the dropdown
- Clicks the **Add button**
- Task is dynamically added to the task list
- Empty input is ignored (basic validation)

🖥️ Technologies Used

- HTML5
- CSS3
- Bootstrap 5
- Bootstrap Icons
- JavaScript (Vanilla JS)

📌 Future Improvements

- 🗑️ Delete task functionality
- ⭐ Mark task as favorite
- ✏️ Edit tasks
- 💾 Save tasks in Local Storage
- 🌙 Dark mode toggle
- 📊 Task progress calculation
- 🗓️ Real calendar integration

▶️ How to Run

1. Download or clone the project
2. Open index.html in your browser
3. Start adding your tasks 🎉
